Seeking Sponsors and Partners!

For the first TEDxNorrköping Event, all costs were covered by existing surplus from the *International Conference on Thinking*, ICOT, 2007, funds held by *Tänkarnätverket*, <http://ThinkingSchools.org>.

The second event, June 2012, was made possible thanks to support from *L.M. Trozelli Donation* held in trust by *City of Norrköping*.

All TEDxNorrköping events from the third to this seventh have been made possible thanks to support from *Tänkarnätverket* and from *Norrköpings Visualiseringscenter*.

However, now the funds from the ICOT conference are empty.

New contributions, sponsors and partners are needed to enable future events!
